This pamphlet provides generic checklists designed to assist unit intelligence functions to develop a comprehensive self-inspection program as well as evaluate their intelligence process during local exercises. Checklists are broken into four areas designed to assist units in preparing for IG UCIs, IRRIs and CERIs as well as wartime mission readiness. The main intent for these checklists is to be a baseline for units to build more detailed checklists tailored to their unit's mission, weapon system, local base requirements, and local procedures. It is not intended to be a substitute for tailored unit checklists. This directory applies to Air National Guard (ANG) units when published in ANGIND2. It does not apply to the US Air Force Reserve (AFRES) units and members.

Chapter 1 MANAGEMENT

1.1. General. The items listed do not constitute the order or limit the scope of inspections or assessments. As a minimum, unit Senior Intelligence Officers should use this directory in conjunction with annual unit self-assessments to identify deficiencies that could degrade mission effectiveness. Units may supplement this publication to add internal compliance items. This directive may be used in whole or in part by HHQ during visits or exercises. Users may add any items that, in the exercise of good judgment, require examination. The SIO may designate responsibility of tasks.

1.1.1. Critical Compliance Objectives (CCO). Items defined by the PACAF staff as key result areas for successful mission accomplishment including, but not limited to, items where non-compliance would result in serious injury, loss of life, excessive cost, or litigation. **CCOs ARE BOLD, ALL CAPS AND MARKED WITH (CCO).**

1.1.2. Core Compliance Items (CCI). Areas that require special vigilance and are important to the overall performance of the unit, but are not deemed “critical.” Non-compliance would result in some negative impact on mission performance or could result in injury, unnecessary cost, or possible litigation. **CCIs are bold, and marked with (CCI).**

1.1.3. General Compliance Items (GCI). Areas deemed fundamental to the successful overall performance of the unit, but non-compliance would result in minimal impact on mission accomplishment or would unlikely result in injury, increased cost, or possible litigation. GCIs are shown in normal font.
